Dong Liu

Personal data

Address: Malvinas Vag 10, Stockholm, Sweden
Email: doli@kth.se
Website: firsthandscientist.github.io

Education

Present	Ph.D.
2016 Dec	Research in statistical models, Bayesian inference, machine learning Dissertation (to appear): **Perspectives on Probabilistic Graphical Models** Information Science and Engineering, Department of Intelligent Systems School of Electrical Engineering and Computer Science KTH Royal Institute of Technology, Stockholm, Sweden.
2016 Mar	M.Sc.
2013 Sep	**Top 5%, Excellent Graduate of Shanghai City in 2016.** Department of Information and Communication Engineering School of Electrical and Information Engineering Tongji Univsersity, Shanghai, China.
2013 Jul	B.E.
2009 Sep	**Top 1%, Excellent Graduate of Liaoning Province in 2013** Department of Information and Communication Engineering Shenyang University of Technology, Shenyang, China

Work Experience

2016 Dec	Engineer, standardization of radio access technology
2016 Apr	Shanghai Research Insittute, Huawei Technologies Co., Ltd

Teaching Experience

Present	Teaching Assistant
2017 Sep	Graduate course EQ2341 Pattern Recognition and Machine Learning KTH Royal Institute of Technology, Sweden.

Summer School Experience

2012 Sep	Chinese Academy of Sciences, China. Scholarship provided by the Chinese Academy of Sciences.
2012 Aug	Kochi University of Technology, Kochi, Japan. Scholarship provided Kochi University of Technology.

Research Interests

Machine learning, Bayesian inference, optimization, signal processing, and their applications. Click R&D to see more about my recent project information.

Recent Publications (See more at my Scholar)

[1] **D. Liu**, R. Thobaben, and L. K. Rasmussen, "Region-based energy neural network for approximate inference," *arXiv preprint arXiv:2006.09927*, 2020.

[2] **D. Liu**, M. T. Vu, Z. Li, and L. K. Rasmussen, "α belief propagation for approximate inference," *arXiv preprint arXiv:2006.15363*, 2020.

[3] Z. Li, G. Dan, and **D. Liu**, "A game theoretic analysis of lqg control under adversarial attack," in *59th IEEE Conference on Decision and Control*, 2020.

[4] A. Ghosh, A. Honoré, **D. Liu**, G. E. Henter, and S. Chatterjee, "Robust classification using hidden markov models and mixtures of normalizing flows," in *to appeary in IEEE International Workshop on Machine Learning for Signal Processing*, 2020.

[5] A. Scotti, N. N. Moghadam, **D. Liu**, K. Gafvert, and J. Huang, "Graph neural networks for massive mimo detection and higher-order qam," in *in ICML Workshop on Graph Representation Learning and Beyond*, 2020.

Grants & Scholarships

2019 Nov – 2017 Jan | Grants, amount $\approx 83k$ SEK.

Grant from Karl Engvers Foundation, Sweden, 2020.
Grant from Knut and Alice Wallenberg Foundation "Jubilee appropriation", Sweden, 2019.
Grant from Ericsson Research Foundation, Sweden, 2019.
Grant from General Travel Foundation, KTH, Sweden, 2019.
Gran from IEEE Signal Processing Society Travel Grant, 2019.

2016 Dec – 2013 Aug | Postgraduate studies scholarships, amount $\approx 55k$ SEK.

National Scholarship for Postgraduate Studies, China, 2013-2016.
National Scholarship for Postgraduate, China, 2015.

2013 Jun – 2009 Sep | Undergraduate studies scholarships, amount $\approx 49k$ SEK.

National Scholarship for Undergraduates in 2012 and 2011, respectively.
The First Class Scholarship of Chinese Instrument and Control Society in 2012.
The Mayor Scholarship of Shenyang City in 2011.
The Scholarship of Liaoning Provincial Government in 2010.
The Special Scholarship in 2012, 2011 and the First-class scholarship in 2010, from Shenyang University of Technology.

Contest Awards

2019 | The Bronze Award in the 5th China Internet+ University Graduates Innovation & Entrepreneurship Awards.

2014 | The First Prize in the National Postgraduate Mathematic Contest in Modeling in China. Top **2.45% in 4900** teams in China, fast fading channel modeling and optimization. Algorithm optimization and programming for channel modeling simulation.

2012 | The President Award in Fukuda Gold Robot Cup Contest of Shenyang City.
My team spent 2 months designing a searching robot capable of seeking and picking metal disks in a given area. My work: circuit welding and a part of programming for the main micro-chip.

2011 | The Grand Prize in Liaoning Contest District of National Undergraduate Electronic Design Contest.
A digital signal transmission analyzer was designed by my team. I programmed the FPGA chips in this contest.

2011 | The First Prize in Liaoning Contest District of Chinese Undergraduate Mathematical Contest in 2011 and 2010 respectively.

Honors

2016 Jun to 2011 Sep | The Excellent Graduate of Shanghai City in 2016.
The Excellent Graduate of Liaoning Province in 2013.
The Excellent Graduate of Shenyang University of Technology in 2013.
The Award Nomination in People of Year 2012 of Liaoning Provincial Undergraduates.
The Pivot of Merit Students of Liaoning Province in 2012.
The Outstanding Inspirational Talent of College Students of Liaoning Province in 2011.
The Youth Medal of Shenyang University of Technology in 2012. 4 award winners are selected among over 16,000 undergraduates every two years.
The Second Prize for Outstanding Contribution to the university in 2011, the Excellent Student Leader in 2011, the Pivot of Merit Students in 2010, the Top Ten Students of school in 2012, 2011 and 2010, respectively, Shenyang University of Technology.

Languages

Mother tongue : Chinese
Professional : English

Other skills

Technical skills: Experienced in the administration of Linux computational servers.

Programming: Python, Pytorch, Bash, Matlab, LaTeX
